

BRITOMART DEVELOPMENT- AUKLAND, NEW ZEALAND

CLIENT: Kupe Group Ltd.
COMPLETION: 1998

DESCRIPTION: This landmark development was designed to be the grand terminus in the heart of downtown Auckland. It will create a sense of place unique to the city and will contribute to the ongoing revitalization of the harbor front and the railway lands to the east. The design consists of a bus terminal, 600,000 square feet of retail/commercial space, 1,600,000 square feet of office space, a 250-room luxury hotel, a 250-room tourist hotel, 80,000 square feet of urban space for plazas, and basement parking for 3,000 cars

COST: \$ 450 million
ROLE: Anthony Lumsden and Charles Wee were responsible for the design.
STATUS: Project was placed on hold after Design Development.
