

**CALGARY CONVENTION CENTER & HOTEL- CALGARY, CANADA**

**CLIENT:** City of Calgary  
**COMPLETION:** 1983 ( Design)

**DESCRIPTION:** Major harbour front mixed use development including' Convention Center, 600 room luxury hotel, Office, major retail shopping mall as well as entertainment facilities taking advantage of the waterfront. The main mass of the building provides axial spine for the office and retail mall components are plugged into. The stepped main building is terminated by 18 story luxury hotel where the amenities and facilities of the main building and hotel are connected. The massing of the building diminishes towards the top creating outdoor decks on each floor to take advantage of the views to the water.

**ROLE:** Anthony Lumsden was responsible for concept design.  
**STATUS:** Concept Design, Schematic Design
