

**EXCELCOMINDO CORPORATE HEADQUARTERS- JAKARTA, INDONESIA**

**CLIENT:** PT. Excelcomindo Pratama  
**COMPLETION:** 1997 (Design)

**DESCRIPTION:** New corporate headquarters center for Excelcomindo Telecommunications Company was organized to take advantage of the natural slope of the site and distant views, but also to protect the complex from possible flooding. The wide variety of program elements consist of office space, communications switching equipment buildings, training buildings, residential accommodations, cafeteria, technical support buildings, a warehouse and a data center. Each component of the 500,000 square foot master plan was designed with garden features located between the buildings, taking advantage of the lush natural vegetation and creating pleasant directed views for occupants.

**COST:** \$ 12 million  
**ROLE:** AJLA was responsible for concept design and schematic design.  
**STATUS:** Project is currently on hold.
