

**MARINA CITY CLUB COMPLEX- MARINA DEL RAY, CALIFORNIA**

**CLIENT:** Marina City Corporation  
**COMPLETION:** 1977

**DESCRIPTION:** This award-winning project encompasses nearly 20 acres of land and 11 acres of water rights at Marina del Ray. There are 2,200 feet of water frontage and 2,300 feet fronting Admiralty Way. The development consists of the following major elements: three high-rise, ocean-view apartment towers totaling 700 units including penthouse suites; a 100 units of low-rise garden units in a three story structure, which ties the apartment tower together; a clubhouse with waterside restaurant; indoor/outdoor recreational facilities; and a marina with 355 slips including three fireboat slips and a small boat launching dock.

**COST:** \$ 70 million  
**ROLE:** As former Corporate Director of Design for DMJM, Anthony Lumsden was responsible for the architectural design of this project.

**STATUS:** Project is built.
