

KODAK FILM PROCESSING LABORATORIES - LOS ANGELES, CALIFORNIA

CLIENT: Kodak Corporation
COMPLETION: 1974

DESCRIPTION: Located in a mixed light industrial-residential area of Los Angeles, this two-story facility has a facade of red brick. This material reflects the traditional Southern California tile of the mission style and combined with the understated, non-monumental entry, blends well with the surrounding neighborhood. The program includes administration space, laboratory, processing zones with various process solution mixing tanks and storage.

COST: \$2 million
ROLE: As former Corporate Director of Design for DMJM, Anthony Lumsden was the Design Architect of this project.
STATUS: Project is built.
